2 x Jack Russell Terrier x

**“Ajax” & “Stamp” 9 yr old brothers Missing from
Salisbury North On Tuesday 19th July 2011**

“Ajax” & “Stamp” are brothers & both are microchipped & desexed. It is urgent that they are both found as they have epilepsy and need close monitoring to keep it under control. They have had it their whole life & it has caused them to be shy around strangers & loud noises. If they are very quiet or sleepy or overly excited or barking, they need urgent vet treatment, as they could be about to have a fit. Do your neighbours have a new dog? Does it look like Ajax or Stamp? If you find them please call us or take them to any vet & we will cover the vet bills.

**Call: Pet Search on 1300 309 004 or “Ajax” &
“Stamp”’s family on 8250 9910 or
0401 848 928 with any sightings**
